Far from the Tree: Parents, Children, and the Search for Identity by Andrew Solomon (author of the also excellent work, *The Noonday Demon: An Atlas of Depression*) is a lengthy (yet precise) examination of what Solomon calls "horizontal" identity: the identity that a child has that is markedly different from that of his or her parents (which Solomon calls vertical identity). There are many ways in which this happens.

"In *Far from the Tree*, Andrew Solomon reminds us that nothing is more powerful in a child's development than the love of a parent. This remarkable new book introduces us to mothers and fathers across America – many in circumstances the rest of us can hardly imagine – who are making their children feel special, no matter what challenges come their way."

National Book Award Winner, PEN America Award Winner, and New York Times Bestseller! Perfect for fans of *This Is Us*, Robin Benway's beautiful interweaving story of three very different teenagers connected by blood explores the meaning of family in all its forms—how to find it, how to keep it, and how to love it. Being the middle child has its ups and downs. But for Grace, an only child who was adopted at birth, discovering that she is a middle child is a different ride altogether. After putting her own baby up for adoption, she goes looking for her biological family, including—Maya, her loudmouthed younger bio sister, who has a lot to say about their newfound family ties. Having grown up the snarky brunette in a house full of chipper redheads, she's quick to search for traces of herself among these not-quite-strangers. And when her adopted family's long-buried problems begin to explode to the surface, Maya can't help but wonder where exactly it is that she belongs. And Joaquin, their stoic older bio brother, who has no interest in bonding over their shared biological mother. After seventeen years in the foster care system, he's learned that there are no heroes, and secrets and fears are best kept close to the vest, where they can't hurt anyone but him. Don't miss this moving novel that addresses such important topics as adoption, teen pregnancy, and foster care.

The National Book Award-winning author of *The Noonday Demon* explores the consequences of extreme personal differences between parents and children, describing his own experiences as a gay child of straight parents while evaluating the circumstances of people affected by physical, developmental or cultural factors that divide families. 150,000 first printing.

Offers adaptation of the best-selling exploration of the impact of extreme differences between parents and children.

out more about her own biological mother. Although her biological mum proves elusive, her search leads her to two half-siblings she never knew existed. Maya, 15, has been adopted by wealthy parents and seems to have the picture-perfect family - that is, if you look past her alcoholic mother and the fact that Maya stands out like a sore thumb. Older brother Joaquin hasn't been so lucky. At 18, he's shuffled between foster home after foster home, always careful never to get attached to anyone or anything, because it always gets taken away. When these three siblings come together, they find in themselves the place they can belong, while the secrets they guard threaten to explode... life is held together by "chewing gum, paper clips, and spit," though she wants everyone to think that her life is one of high glamour and budding fame. When their father dies, the sisters inherit a house in Prosper, North Carolina. Their mother, Della, is adamant that they forget about going there and dredging up the past. Because Della has secrets she'd rather not see come to light—secrets and heartbreak she's kept from everyone for years. Neither Ronnie, Celeste, nor Della realize just what their trip to Prosper will uncover and they must discover for themselves who they really are, who they really love, and what the future holds for them. *Far From The Tree* is a novel that asks the questions: can the past ever truly remain hidden? Can mothers and daughters put aside their usual roles long enough to get to really know each other? Long enough to see they each have felt the love, loss, heartache and joy that they share as women. And can two strangers realize that they are, and always will be, sisters?

"Once there was a tree...and she loved a little boy." So begins a story of unforgettable perception, beautifully written and illustrated by the gifted and versatile Shel Silverstein. This moving parable for all ages offers a touching interpretation of the gift of giving and a serene acceptance of another's capacity to love in return. Every day the boy would come to the tree to eat her apples, swing from her branches, or slide down her trunk...and the tree was happy. But as the boy grew older he began to want more from the tree, and the tree gave and gave and gave. This is a tender story, touched with sadness, aglow with consolation. Shel Silverstein's incomparable career as a bestselling children's book author and illustrator began with *Lafcadio, the Lion Who Shot Back*. He is also the creator of picture books including *A Giraffe and a Half, Who Wants a Cheap Rhinoceros?*, *The Missing Piece*, *The Missing Piece Meets the Big O*, and the perennial favorite *The Giving Tree*, and of classic poetry collections such as *Where the Sidewalk Ends*, *A Light in the Attic*, *Falling Up*, *Every Thing On It*, *Don't Bump the Glump!*, and *Runny Babbit*. From the winner of the National Book Award and the National Books Critics' Circle Award—and one of the most original thinkers of our time—“Andrew Solomon's magisterial *Far and Away* collects a quarter-century of soul-shaking essays” (Vanity Fair). *Far and Away* chronicles Andrew Solomon's writings about places undergoing seismic shifts—political, cultural, and spiritual. From his stint on the barricades in Moscow in 1991, when he joined artists in resisting the coup whose failure ended the Soviet Union, his 2002 account of the rebirth of culture in Afghanistan following the fall of the Taliban, his insightful appraisal of a Myanmar seeped in contradictions as it slowly, fitfully pushes toward freedom, and many other stories of profound upheaval, this book provides a unique window onto the very idea of social change. With his signature brilliance and compassion, Solomon demonstrates both how history is altered by individuals, and how personal identities are altered when governments alter. A journalist and essayist of remarkable perception and prescience, Solomon captures the essence of these cultures. Ranging across seven continents and twenty-five years, these “meaty dispatches...are brilliant geopolitical travelogues that also comprise a very personal and reflective resume of the National Book Award winner's globe-trotting adventures” (Elle). *Far and Away* takes a magnificent journey into the heart of extraordinarily diverse experiences: “You will not only know the world better after having seen it through Solomon's eyes, you will also care about it more” (Elizabeth Gilbert).

struggle to face the messy, confusing consequences of Oliver's father's crime. Full of romance, coming-of-age emotion, and heartache, these two equally compelling characters create an unforgettable story.

Trees are unmistakably crucial to the physical success and well-being of our planet. These giants of the plant kingdom allow and invite people to pass under their branches to share their essence and energy and wisdom in a completely selfless way. In my story an apple tree drops its apples beneath its branches, and they are TAKEN by the people who pass under to taste the sweet. The tree is not ready to surrender its self-worth to children snatching up her golden delicious apples without learning something about the human tree of children. The tree begins to question the general consequences between the adults and the children. The tree through discovery learns her true value. The tree represents Nature, and her apples are her precious gifts. The allegorical work shows that humankind is composed of many qualities like the many apples on the tree. Some apples are crisp, some are sweeter than others, and some are in conical shape. The children who pass under the trees branches possess different traits passed on by their parents. Among the different traits we should achieve in our daily lives include joy, truthfulness, appreciation of internal and external beauty, peace, harmony, etc. The tree discovers its self-worth when he understands The Apple Doesn't Fall Far From the Tree in nature and humankind. Basically, kids are like their parents, a chip off the old block. Nature (apple tree) and humankind become one in time and space.
