An accessible, practical, step-by-step how-to guide that supplements Getting Things Done by providing the details, the how-to's, and the practices to apply GTD more fully and easily in daily life The incredible popularity of Getting Things Done

revealed people's need to take control of their own productivity with a system that reduces the stress of staying on top of it all. Around the world hundreds of certified trainers and coaches are engaged full time in teaching the process, supported by a grassroots movement of Meetup groups, LinkedIn groups, Facebook groups, podcasts, blogs and dozens of apps based on it. While Getting Things Done remains the definitive way to gain perspective over work and create the mental space for creativity and mindfulness, The Getting Things Done Workbook enhances the original by providing an accessible guide to the GTD methodology in workbook form. The workbook divides the process into small, manageable segments to allow for easier learning and doing. Each chapter identifies a challenge the reader may be facing--such as being overwhelmed by too many to-do lists, a messy desk, or email overload--and explains the GTD concept to address. The lessons can be learned and implemented in almost any order, and whichever is adopted will provide immediate benefits. This handy instructional manual will give both seasoned GTD users and newcomers alike clear action steps to take to reach a place of sustained efficiency.

The focus of this book is to bring clarity and understanding to the ministry of the teacher. This information will help individuals to recognize the operation of this gift in their lives and in the lives of others. It is our hope that believers will develop a greater respect and appreciation for the teaching office and gift.

Surprise! You've just been laid off from the teaching position in which you have so passionately invested your time, talents and heart for years! What now? Hundreds of thousands of American teachers have been laid off in the last four years as a result of the long term recession that continues to challenge the country's economy. In this book, one of those teachers shares what that experience was like for her, how she coped with unexpected unemployment, and what she learned about finding her way as a teacher without a classroom. Full of not only truthful reflection and encouragement for teachers facing similar situations, this book also offers practical tips for how to handle lay-off and unemployment, and how to prepare yourself as an education professional to expand your career outside your classroom. These are uncertain times, but teachers don't need to feel uncertain about their careers. There IS life as an education professional after lay-off!

What is EDU4? It is the place where ALL teaching and learning happens. It is a huge common educational resource and a single person learning tool at the same time. It is global, regional, local and personal simultaneously. It can be public, private and intimate. It works online and offline and the users do not see the difference. Connected or disconnected, communal or individual, cooperative or singular, in EDU4 all students, teachers, parents and school administrators find everything they need for all their educational projects: institutional and personal.

Drawing on his personal fascinating story as a prosecutor, a defendant, and an observer of the legal process, Paul Butler offers a sharp and engaging critique of our criminal justice system. He argues against discriminatory drug laws and excessive police power and shows how our policy of mass incarceration erodes communities and perpetuates crime. Controversially, he supports jury nullification—or voting “not guilty” out of principle—as a way for everyday people to take a stand against unfair laws, and he joins with the “Stop Snitching” movement, arguing that the reliance on informants leads to shoddy police work and distrust within communities. Butler offers instead a “hip hop theory of justice,” parsing the messages about crime and punishment found in urban music and culture. Butler’s argument is powerful, edgy, and incisive.

Learning how to get great grades with an edge! We get paid in this world for doing things right. We get paid extra if we do them right and fast. School is a wonderful laboratory for our kids to develop their ability to do so. Easy A's can show them how. It covers all the basics: motivation, organization, time management, as well as study skills and test taking strategies that really work. More importantly, Easy A's shows students how to approach school strategically! With the right strategy C's can readily become B's and B's can easily become A's!
