Log Home Living is the oldest, largest and most widely distributed and read publication reaching log home enthusiasts. For 21 years Log Home Living has presented the log home lifestyle through striking editorial, photographic features and informative resources. For more than two decades Log Home Living has offered so much more than a magazine through additional resources – shows, seminars, mail-order bookstore, Web site, and membership organization. That's why the most serious log home buyers choose Log Home Living.

National architectural magazine now in its fifteenth year, covering period-inspired design 1700 – 1950. Commissioned photographs show real homes, inspired by the past but livable. Historical and interpretive rooms are included; new construction, additions, and new kitchens and baths take their place along with restoration work. A feature on furniture appears in every issue. Product coverage is extensive. Experts offer advice for homeowners and designers on finishing, decorating, and furnishing period homes of every era. A garden feature, essays, archival material, events and exhibitions, and book reviews round out the editorial. Many readers claim the beautiful advertising—all of it design-related, no "lifestyle" ads—is as important to them as the articles.

Building Systems Magazine (BSM) is an award winning United States-based trade magazine read by builders, developers and general contractors using or considering using innovative construction technologies. Once commonly known as "pre-fab," today's modern building systems employ innovative materials and techniques to create residential or commercial structures in a factory setting in a fraction of the time it takes to site build. BSM focuses mainly on log, timber frame, modular, panel, and structural insulated panel building technologies. Since factory fabrication and site preparation take place simultaneously, structures are finished and ready for occupancy in weeks, rather than months or years as required by conventional site-building schedules.

Popular Mechanics inspires, instructs and influences readers to help them master the modern world. Whether it's practical DIY home-improvement tips, gadgets and digital technology, information on the newest cars or the latest breakthroughs in science -- PM is the ultimate guide to our high-tech lifestyle.

A comprehensive homeowner's reference guide to remodeling a home arms readers with time-saving information on architectural styles, construction types, roofs, materials, lighting options, flooring, doors, windows, and much more. Original.

Log Home Design is the preferred, trusted partner with readers in simplifying the process of becoming a log home owner. With its exclusive focus on planning and design, the magazine's friendly tone, practical content and targeted advertising provide the essential tools consumers need – from the crucial preliminary stages through the finishing touches of their dream log home.

Timber Home Living introduces and showcases the beauty and efficiency of timber homes to an eager custom home buying audience. The magazine's inspiring photography, informative editorial, quality advertising and essential resources involves and encourages readers to pursue their dream home.
